Statement from Olympus on vulnerabilities caused by PTCs Axeda Agent and summarized as ACCESS:7

Dear Sir or Madam,

in March 2022 seven vulnerabilities caused by the Axeda agent and the Axeda Desktop Server were disclosed. These vulnerabilities were summarized as ACCESS:7. The assigned CVEs are CVE-2022-25246, CVE-2022-25247, CVE-2022-25248, CVE-2022-25249, CVE-2022-25250, CVE-2022-25251 and CVE-2022-25252.

After carefully analyzing the Olympus products Olympus herewith states, that no product or solution distributed by Olympus Medical Systems has any Axeda component included or uses any Axeda component.

Therefore, we confirm, that products or services distributed by Olympus Medical Systems are not affected by any of the ACCESS:7 vulnerabilities.
